

Case no. #18

Victim(s) name: Bianca Baclava (37)

About the Case:

Bianca Baclava was leaving her job as a night custodian at the Ostrava International School in the Czech Republic. She was last seen by a coworker at 9 pm on April 7th. She usually walks home the one mile to her one-bedroom apartment a mile from the school. Her neighbors claim she never arrived home. One concerned neighbor reported her missing the next day. She was found in a dumpster outside of town.

Notes from CSI:

Body was naked and dumped haphazardly into dumpster. Some fabric fibers were found around her neck. She had a single stab wound in the abdomen. No signs of defensive wounds, suggesting the assailant may have approached her and stabbed her before strangling her. There is redness in the eyes and spots on her face. There is also finger like bruising over her mouth, possibly to stop her from screaming. No witnesses have come forward.
